WITHDRAWN

[HB 1100](#) Delegate [Braveboy](#), et al PREVAILING WAGE RATES – PUBLIC WORKS CONTRACTS – SUITS BY EMPLOYEES
OPPOSE
Expands the right of workers on prevailing wage jobs to sue their employers:

- requires a complaint to be filed with Commissioner of Labor and Industry; Commissioner can either conciliate or order employer to pay; if employer fails to pay as ordered, then Commissioner or employee can sue;
- allows the employee to recover fringes;
- allows double or treble damages against employers who acted willfully and knowingly or with deliberate ignorance or reckless disregard; and
- allows the employee to recover attorney’s fees.

EFFECTIVE OCTOBER 1, 2010
Passed House (88-46); in Senate
Assigned to: [Finance](#)
Hearing 4/7, 1:00 p.m.

[HB 1125](#) Delegate [Holmes](#), et al STORMWATER MANAGEMENT — REDEVELOPMENT AND PRELIMINARY PLAN APPROVAL SUPPORT

This is the bill supported by a coalition of which Maryland AGC is a member and which includes developers, Maryland Home Builders, counties, municipalities, and engineers. The bill addresses MDE's planned adoption of stormwater management regulations that violate an informal agreement among the parties and effectively prohibit urban development.

EMERGENCY BILL (requires 60% vote in both Houses to pass; takes effect immediately upon signature by the Governor)

Assigned to: [Environmental Matters](#)

Heard 3/24

[HB 1236](#) Delegate [Taylor](#), et al PROCUREMENT – MBE PARTICIPATION WAIVER REQUIREMENTS OPPOSE

Prohibiting specified units of government from waiving the obligations of a contractor relating to MBE unless the contractor publishes a solicitation for MBE participation in a newspaper or other public forum, does not receive a response to the solicitation, and at least 30 days have passed since the date the solicitation was published.

UNFAVORABLE (killed in committee)

[HB 1238](#) Delegate [Hucker](#), et al HEALTH INSURANCE REQUIREMENTS – PUBLIC WORK CONTRACTS OPPOSE

Requires prime contractors on projects valued at \$500,000 or more and subcontractors on projects valued at \$100,000 or more to provide health insurance that costs at least as much per employee as the prevailing wage determination increment. If the contractor's health insurance costs less than the prevailing wage increment, the contractor must pay the difference to the Maryland Medical Assistance Program. Fines and penalties, including attorney fees and costs, apply for violations.

[SB 106](#) (HB 92) [The President](#) (By Request – Administration), et al, JOB CREATION AND RECOVERY TAX CREDIT WATCH

8Providing a MD income tax credit of up to ~~\$3,000~~ \$5,000 per employee up to a maximum of \$250,000 for Maryland employers hiring new employees (MD residents who are receiving UI or have exhausted benefits) during calendar 2010 in qualified positions (full time, expected to last 12 months); providing for certification and regulation by DLLR; limiting the aggregate credit that may be approved by the Secretary to \$20,000,000, to be allocated on a first-come, first-served basis. Note that the credit is pro-ratable at ~~\$250~~ \$416.67 per month if the job is vacated before 12 months.

EMERGENCY BILL (requires 60% vote in both Houses to pass; takes effect immediately upon signature by the Governor)

Amended and passed Senate (47-0); **amended (largely technical amendments) and passed House (134-6) (Note: since the bill passed in different versions, the differences will have to be reconciled)**

[SB 107 The President](#) (By Request – Administration) UNEMPLOYMENT INSURANCE MODERNIZATION AND TAX RELIEF ACT

This bill would reduce the interest rate on certain late payments, and alter the imposition and calculation of tax rates. However, to allow MD to qualify for a one-time infusion of \$127 million of federal funds, it also alters provisions for UI benefit eligibility in the areas of alternate base period, part-time workers, and training:

1. Interest rate provisions would reduce the interest rate on late payments from 1.5%/month to 1.0% 0.5%/month (effective on signature).
2. Changes in the imposition of UI taxes would apply the Schedule E table instead of the required Schedule F table, reducing UI taxes by about 4% for top rate payers (22% for bottom rate payers).
3. Alternate base period provisions would allow an individual to collect if he/she qualified based on his/her wages during the most recent four quarters rather than the first four of the five most recent quarters (intended to let more workers qualify). Effective 03/01/2011.
4. Part-time work provisions would allow a part-time worker to qualify if he/she worked 20 hours part-time for a majority of the base period rather than all of the base period.
5. Alternate base period provisions would allow an individual to collect if he/she qualified based on his/her wages during the most recent four quarters rather than the first four of the five most recent quarters (intended to let more workers qualify). Effective 03/01/2011.
6. Training provisions create a new eligibility for up to 26 weeks of additional benefits for training in a “demand occupation” for workers who were laid off in a “declining occupation” and have exhausted their UI benefits; the cost of these training benefits are not charged to the individual’s base period employer. Effective 03/01/2011.
7. Eliminates the schedule of benefits for weekly benefit amounts less than \$50/week (effective 03/01/2012).

8. Reduces the “wage disregard” (amount an unemployed person can earn without losing benefits) from \$100 to \$50 (effective on signature).
 9. If an individual is discharged for misconduct, increases the amount of wages a person must earn before becoming eligible to receive benefits from 20 times his weekly benefit amount to 25 times (effective on signature).
 10. If an individual is discharged for gross or aggravated misconduct, increases the minimum weeks of disqualification from 5 to 10 and the maximum from 10 to 15 (effective on signature).
 11. For 2010 and 20011, requires the Secretary of DLLR to offer payment plan options to spread out UI tax payments across the entire year (rather than most falling due in the 1st quarter)(effective on signature).
 12. Requires the Secretary of DLLR to establish payment plans to spread out payments and reduce interest rates on late payments to 0.5% whenever Table F (the highest UI tax rate) is in effect (effective 01-01-2012).
 13. Direct the UI Oversight Committee to look for a “cost neutral” way to increase benefits to 54% of the average weekly wage (today, benefits are approx. 48%)
- EMERGENCY BILL (requires 60% vote in both Houses to pass; takes effect immediately upon signature by the Governor)

[SB 911](#) (HB 1290) Senator [Astle](#) UNDERGROUND FACILITIES – DAMAGE PREVENTION
WATCH

Major rewrite of Maryland's one-call ("Miss Utility") statute. Most of the provisions of the existing law remain the same: mark if the proposed excavation is within 5 ft of the horizontal plane of the underground facility; facility owner must locate 18 inches either side; hand dig inside 18 inch mark. Changes include:

- establishing the Maryland Underground Facilities Damage Prevention Authority;
- notice of intended excavation/construction remains effective for 12 days and must be renewed every 12 days thereafter;
- utility must mark within 2 days; give notice that it cannot mark; and/or negotiate with contractor;
- engineers and architects can request and receive underground locate information on a project basis;
- fines are increased to \$2500 1st offense; \$5000 2nd offense;
- only a court can assess 10 times cost of repair penalty (not the Authority);
- fees for reimbursement may only be charged by the Authority (not by facility owners, counties or municipalities);
- requires locate of stormwater drains after January 1, 2012

[HB 1125](#) Delegate [Holmes](#), et al STORMWATER MANAGEMENT — REDEVELOPMENT AND PRELIMINARY PLAN APPROVAL SUPPORT

This is the bill supported by a coalition of which Maryland AGC is a member and which includes developers, Maryland Home Builders, counties, municipalities, and engineers. The bill addresses MDE's planned adoption of stormwater management regulations that violate an informal agreement among the parties and effectively prohibit urban development.

- Establishing that redevelopment projects (30% impervious surface) can employ environmental site design, or stormwater management as approved by the local subdivision, or
- Allows a fee-in-lieu payment in an amount determined by a local government
- If a redevelopment project, or any phase thereof, has received "preliminary approval" of (1) a development plan; (2) a project plan; (3) a sketch plan; (4) a concept plan; (5) a site plan; (6) an adequate public facilities approval; or (7) any other equivalent approval under the local laws or regulations of the jurisdiction in which the development project is situated before May 4, 2010, then the stormwater management plan need only conform to the laws in effect at the time of that approval.
